CONTINUOUS TECHNOLOGY REFRESHMENT

### MISSION CRITICAL SUPPORT and TECHNOLOGY DEVELOPMENT

ADEPT solves difficult obsolescence issues with in-house engineering, manufacturing, and testing. From discrete components to entire systems, ADEPT can produce Technical Data Packages, insert new technology to improve performance and reduce cost, and provide cost reductions while eliminating single source dependencies. Funding vehicles include SBIRs and the Continuous Technology Refreshment (CTR) program. Obsolescence challenges solved with **Precision, Quality, and Integrity.**
